DETAILED ACTION

The Amendments filed on Sept. 27, 2007 has been received and entered. Currently, Claims 36-43, 45-48, 51-54, 57-59, 61-63 are pending. Claims 36-43, 45-48, 51-54, 57-59, 61-63 are examined on the merits. Claims 1-35, 44, 49-50, 55-56, 60 are canceled.

Response to Arguments

Claim Rejections - 35 USC § 112

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 41-43, 45-48, 51-54, 57-59, 62-63 are rejected under 35 U.S.C. 112, first paragraph, because the specification does not teach the identity of the active plant compounds from M. eggersiana.

Undue experimentation would be required to practice the invention as claimed due to the quantity of experimentation necessary; limited amount of guidance and limited number of working examples in the specification; nature of the invention; state of the prior art; relative skill level of those in the art; predictability or unpredictability in the art; and the breadth of the claims. In re Wands, 8 USPQ2d 1400, 1404 (Fed. Cir. 1988).

These claims either claim or claim the use of "plant active compounds" from M. eggersiana. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to determine the identity of the active compounds of M. eggersiana. After the active ingredients are determined, the artisan would have to test other plants to determine if these

active compounds are present. Since it is well known that the presence or absence of chemicals in plant is unpredictable, this would clearly be undue experimentation.

Claims 41-43, 45-48, 51-54, 57-59, 62-63 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filled, had possession of the claimed invention. This is a "written description" rejection, rather than an enablement rejection under 35 U.S.C. 112, first paragraph. Applicant us directed to the Guidelines for the Examination of Patent Applications under the 354 U.S.C. 112, 1 "Written Description" Requirement, Federal Register, Vol. 66, No. 4, pages 1099-1111, Friday January 5, 2001.

The claims are drawn to medicament comprising plant active compounds from M. eggersiana. The specification only discloses dried plant material from M. eggersiana. In analyzing whether the written description requirement is met for genus claims, it is first determined whether a representative number of species have been sufficiently described. In this case, only M. eggersiana has been described while the claims potentially encompass thousands of other plant extracts. Applicant has not demonstrated what the active compounds of M. eggersiana are and what other plants might potentially have these compounds. This limited information is not deemed sufficient to reasonably convey to one skilled in the art that Applicant was in possession of active compounds extracted

from all types of plants at the time the application was filed. Thus, it is concluded that the written description requirement is not satisfied for the claimed genus.

Conclusion

Claims 36-40, 61 are allowable. The prior art does not teach that Mascagnia eggersiana has any medical properties. Thus, the prior art does not teach or render obvious claims 36-40, 61.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
